Palatino Linotype

The "Sixfold" wordmark and headings. Book Antiqua is the same design if Palatino is missing.

CASCADIA MONO

Small capital labels like "LAWN, LAND & FIRE", widely spaced. Consolas works too.

USING THE LOGO

- **White or light page:** the solid green logo. The multi-green one disappears on white.
- Don't stretch, squash, recolour or add effects. Resize from the corner.
- In print, keep it at least the size it is on the business card (just under 1 in wide), so the fine roots under the ground line still show.
- **Dark page or photo:** the multi-green logo, exactly as on the business cards.
- Leave clear space around it about the height of the small tree.
- The name is **Sixfold**; the public name is **Sixfold Colorado**.
