How we measure your return

Every partner gets a monthly report, so you see what the partnership did instead of guessing.

QR scans	Your sign's code is yours alone. We count scans by week and send the numbers.
Offer redemptions	A member-only offer with its own code shows exactly who came to you from Peak.
Leads	Names and contact details collected, with permission, at your booth and demo days.
Events	Attendance and photos from every event you present.
Quarterly review	We look at the numbers with you and adjust what isn't working.

When does it pay for itself? Divide the yearly investment by what one new customer is worth to you. Example: if a new patient is worth $1,500 to a clinic, a court partnership ($12,000) pays for itself at 8 new patients a year. If one roofing job is worth $3,000 in profit, it takes 4.
