SIXFOLD LLC · INTERNAL — OPERATIONS

Where the Debris Goes

A hauling reference for Colorado's fire-mitigation regions: every disposal site we could confirm, grouped by area and ranked **cheapest first**.

Prepared **2026-09-08** Base **Monument, CO** Phase 1 — call before the first haul

---

THE ONE THING TO TAKE FROM THIS

Most of Colorado's cheap and free drop-offs are **community slash programs funded for homeowners**. Several bar commercial haulers outright. For a paid Sixfold job with haul-off in the contract, the usable sites are the **commercial landfills**, **Rocky Top Resources**, **A1 Organics**, and the **Black Forest Slash & Mulch** site — everything else is a homeowner-haul or chipping-day tool. Rates and season dates at these sites change every year and sometimes mid-season; re-verify before any quote that commits us to a haul-off price.

How to read this

Sixfold's tool list is "fell trees, grind stumps, build slash piles, chip, cut rounds, haul off or leave on site." This document is only about the **haul-off** line — where the material goes and what the gate charges. Three things decide the real cost of a run, in this order:

1. **Drive time.** A loaded round trip is roughly $60–$120 per hour of truck-and-operator time before the gate fee. A free site 90 minutes away usually loses to a paid site 20 minutes away. Distances below are rough drive estimates from Monument and are flagged as estimates.
2. **Whether the site takes a contractor load at all.** See the box below — this is the biggest filter on the list.
3. **The gate fee**, quoted three different ways: **per ton** (weighed), **per cubic yard** (eyeballed at the scale house), or **per load** (a pickup bed or a defined trailer size). Rough conversions: loose slash ≈ 200–400 lb/cy; chipped material ≈ 500–800 lb/cy; green rounds and logs ≈ 800–1,000 lb/cy. A pickup bed is ≈ 2.5 cy — so a pickup of loose slash is a quarter to half a ton; a pickup of green rounds is a ton or more.

Within each region, sites are ordered **cheapest first** on their headline rate for mixed slash-and-wood, so the best deal is at the top. A site that is free but closed to contractors is still listed — a client may be able to haul their own, and a chipping-day arrangement can sometimes use it.

On the very low numbers: the $5 "wood chips" rates at SCRAP and Eagle County are quoted straight off those landfills' own fee pages — they are that cheap because the material is *already chipped* (2 in max) and the site reuses it as cover. That is **not** a rate for slash, branches or logs, which price higher on the same schedules. Confidence on every figure is in the fact-check log: about twenty sites are confirmed against the operator's own page today, a handful are flagged "Call" because no rate is published, and two (Chaffee, Pitkin) are carried from older reporting.

Cost tiers: `• FREE` `• LOW` under ~$15/ton or ≤ $12/load `• MID` ~$20–$35/ton or a paid load `• HOT` $40+/ton or wood billed as trash `• CALL` not published.

The contractor-access problem read first

SITE TYPE	TYPICAL CONTRACTOR RULE
CUSP community slash sites Bailey · Fairplay · Divide	**"No Contractors Please."** Home and property owners only. Stated on baileyslashsite.com.
County slash / mulch programs Douglas · Jefferson · El Paso / Black Forest	Built for residents. Jeffco and Black Forest publish no contractor ban but price and rules assume a homeowner; Douglas is "residents only, bring ID." Confirm per program whether the crew may deliver on a resident's behalf.
Boulder County Sort Yards Nederland · Meeker Park	**Contractors allowed**, but must complete a registration form for *each* client's property — address and owner per load. Free.
Commercial landfills & organics yards Front Range · DADS · Larimer · SCRAP · Eagle · Pitkin · Milner · Rocky Top · A1 Organics	Open to commercial haulers at the posted rate. This is where Sixfold's routine haul-off volume goes.

A El Paso County & the Pikes Peak area

Home region. Monument, Palmer Lake, Black Forest, Colorado Springs, Woodland Park, Divide, Florissant — Sixfold's core service area alongside Douglas and Teller.

SITE	RATE	NOTES
Divide Transfer Station (Apex Waste) Woodland Park / Divide	• LOW $5 per load recycling for WP / Teller residents · bulk yard waste quoted per job	Teller County and the City of Woodland Park run a **free residential pine-needle and leaf program in May–June** with Apex and the fire department. Bulk yard waste: Apex quotes per job, (719) 686-7517. Resident-facing.
Black Forest Slash & Mulch SAMCOM · Black Forest (Shoup Rd area; exact address not published)	• LOW $10 per load, any size · loyalty 6 for $50 · cash or check to "SAMCOM" only	Cheapest structured option near base and **no stated contractor ban** — but strict: tree and brush debris only, **max 6 ft length, 8 in diameter**, no stumps, no roots, no lumber, no bulk pine needles. 2026 season: opens May 2, last slash day Sept 12, last mulch day Sept 19. Tue & Thu 5:00–7:30 pm, Sat 8:00 am–4:00 pm, no Sundays. ~15–20 min from Monument. Good for a clean chip-and-limb load; useless for rounds or grindings.
Divide Slash Site (CUSP) E of Hwy 24 / Hwy 67, S on Hybrook Rd past the post office, Divide	• MID $20 per load (≈ one full pickup bed) · mulch free when available	**Homeowners only — "No Contractors Please."** Season roughly May–late Sept, Saturdays 9 am–4 pm (2026 dates vary — check baileyslashsite.com/divide-slashsite). No stumps, roots, lumber, ties, dirt, trash, metal, weeds, grass, bark or bagged cones. Teller County's main homeowner slash outlet; to Sixfold, a client-haul or chipping-day destination only. ~35 min west of Monument.

SITE	RATE	NOTES
Rocky Top Resources 1755 E Las Vegas St, Colorado Springs	• CALL contractor loads at posted cubic-yard rate ("Price Guide" PDF not online) · delivery from $85 · (719) 579-9103	The main commercial wood-recycling yard for the Springs. Branches, brush, junipers, logs, untreated fencing, pallets, needles, leaves, old mulch. Stumps generally **not** listed. Mon–Fri 7:30–5, Sat 8–4. ~25–30 min south of Monument. The advertised **$10 Saturday rate is residents only and excludes contractors.** Free mulch back-haul.
Midway Landfill (WM) 8925 Rancho Colorado Blvd, Fountain · I-25 exit 119	• CALL wood / yard-waste rate not posted online; MSW gate rate otherwise · (719) 382-8383	Full-service landfill, accepts yard, green and wood waste for composting per WM's fact sheet — a green-waste rate below MSW likely exists but is not published. ~40–50 min south of Monument, past Colorado Springs. The nearest true full-service landfill: best for **stumps, root balls, oversized rounds and contaminated loads** the slash sites reject.
City of Colorado Springs Forestry — free mulch pile 1601 Recreation Way	• N/A not a drop-off	Listed to correct a common assumption: the City runs **no public dump site**. It gives mulch away (bring your own tools, no commercial use) and points residents to Rocky Top for disposal.

BOTTOM LINE Routine crew haul-off goes to **Rocky Top Resources** (call for the contractor cy rate) or, for clean limb-and-chip loads under the size limit, **Black Forest Slash & Mulch at $10/load**. Stumps, root balls and oversized rounds go to **Midway Landfill** at Fountain. The Teller County sites are homeowner-only.

B Douglas County

Sedalia, Castle Rock, Larkspur, Franktown, The Pinery, Roxborough. Sixfold has a live quote in S Sedalia and this is the county with the cost-share program.

SITE	RATE	NOTES
Douglas County Slash-Mulch Program GreenWorks site (year-round) + seasonal Sedalia site, 5675 Delva Way, Sedalia	• FREE	**Residents only — bring ID / proof of residency.** Loader on site; free wood chips back to residents as supply allows. Main site Mon–Sat 8 am–5 pm (closed county holidays); Sedalia seasonal site Saturdays 7 am–5 pm through October. **A contractor delivering on a resident's behalf is not addressed in the published rules — confirm by phone (303-663-6274) before relying on it.** Separately, Douglas County cost-share includes up to $7,000 for community chipping, paid toward the contractor.
Castle Rock / Castle Pines town clean-up events town-wide	• FREE to town residents, a few weekends a year	Event-based, not a standing site. Watch crgov.com/2866 and the town calendars. Homeowner-facing.
Denver Arapahoe Disposal Site (DADS, WM) 3500 S Gun Club Rd, Aurora	• CALL charged by weight; green / organics-for-compost rate not obtained · (720) 876-2650	Nearest large full-service landfill to N Douglas County; accepts municipal, C&D, and yard / organics for composting. Sells compost and mulch. Open 6 am–8:30 pm Mon–Fri, 7–5 Sat. Best Douglas-area option for **stumps and mixed loads**. ~35–45 min from central Douglas County; ~50 min from Monument.

BOTTOM LINE The county slash-mulch site is free but resident-gated; get a definitive answer on contractor drop-off before quoting a Douglas job as “haul included.” Failing that, mixed loads and stumps go to **DADS** in Aurora at the (unconfirmed) weight rate.

C Jefferson County, Clear Creek & Gilpin

Front Range foothills. Evergreen, Conifer, the Bailey corridor, Golden, Idaho Springs, Black Hawk, Coal Creek Canyon. Dense WUI and the contested ground against the established outfits.

SITE	RATE	NOTES
Clear Creek County Slash Site 1531 Soda Creek Rd, Idaho Springs	• FREE to Clear Creek residents · • FEE out-of-county (not published) · (303) 679-2482	Open Tue, Wed, Fri, Sat 8 am–5 pm. The out-of-county fee makes this marginal for a Sixfold job unless the property is in-county.
Gilpin County Slash Site 278 Jankowski Drive, Black Hawk	• FREE to Gilpin residents · • FEE non-residents per county schedule · (303) 582-5004	2026 season Apr 22–Nov 8, Wed–Sat 7:00 am–2:30 pm, Sun 8:00 am–1:00 pm. Co-located with the county transfer station. Same in-county / out-of-county split as Clear Creek.
Jefferson County SLASH Rotating yards: Marshdale, 26624 N Turkey Creek Rd, Evergreen · Tincup Ridge, 101 Rooney Rd · Settlers Drive (in design)	• MID $24 per load · 1 load = 6 cubic yards (pickup to cab height, or trailer 8 × 5 × 4 ft) · credit cards only	2026 season starts May 15, weekend operation on a rotating calendar (jeffco.us/slash) through late October. Tree limbs, prunings, pine cones, woody debris; needles accepted but separated. **No stumps, no lumber, no detached leaves, no construction material.** “Residents only, though you do not need to be a JeffCo resident” — a contractor ban is not stated but the program is built around homeowners; confirm before hauling crew loads.
City of Golden city limits	• N/A no city slash site	Golden runs curbside organics for city homeowners and points residents to the Jeffco SLASH and Clear Creek / Gilpin sites. Listed to correct the assumption of a Golden drop-off.

BOTTOM LINE Jeffco SLASH at **$24 / 6-cy load** is the workable number if crew loads are accepted — get that confirmed. Clear Creek and Gilpin only make sense when the job itself is in that county (residents free). None take stumps.

D Boulder County

Boulder foothills, Nederland, Allenspark, Ward, Jamestown, Coal Creek Canyon, the Marshall / Superior grassland edge. Post-Marshall and post-CalWood, the most mitigation-literate market in the state.

SITE	RATE	NOTES
Boulder County Community Forestry Sort Yards Nederland: 291 Ridge Road · Meeker Park: 8200 Hwy 7, Allenspark	• FREE logs, slash and timber	**Contractors accepted** but must complete a registration form *for each client's property* (address + owner). 2026: Nederland May 7–Nov 14, Meeker Park May 13–Oct 31, both Wed–Sat 9 am–5 pm. Logs / chunk wood 4 in min diameter, squared ends; slash / branches **4 in max diameter**; decayed wood (no roots); bagged grass / leaves / weeds. **Not accepted:** logs with branches attached, **beetle-infested logs July 15–Sept 15**, treated / dimensional lumber, **stumps or root balls**, loose grass, loads with rock / dirt / metal. Daily status 303-678-6368. Best free contractor-accessible option in the state — but the 4 in cap and no-stump rule mean the crew still needs a landfill for the heavy fraction.
Wildfire Partners community chipping countywide	• FREE chipping for enrolled properties, 2026 season open	A chipping program, not a tip site — relevant if Sixfold subcontracts or coordinates. wildfirepartners.org/chipping-program.
Western Disposal / Eco-Cycle facilities City of Boulder	• CALL yard-waste and wood rates vary; not obtained	Commercial organics acceptance exists in the city; call for contractor rates if working the Boulder plains rather than the foothills.
Front Range Landfill (Waste Connections) 1830 Weld County Rd 5, Erie	• HOT wood billed as general MSW: $98.00/ton, $196 minimum · clean soil / sod / mulch $18.00/ton · effective Dec 1 2024	The most expensive place on this list to take wood — it has **no separate brush rate**, so a chipped load prices the same as household trash. Use only for stumps and contaminated debris the sort yards reject, and only when Erie is genuinely the closest gate. Mon–Fri 6 am–5 pm, Sat 6 am–2 pm. Safety vest required outside the vehicle; uncovered loads charged double.

BOTTOM LINE Take clean slash (≤ 4 in) and logs to the **Nederland or Meeker Park sort yard for free**, registering each property. Send stumps, root balls and big rounds to a landfill — but **not Front Range Landfill unless unavoidable**, because wood there is $98/ton.

E Larimer County & the Estes Valley

Fort Collins foothills, Loveland, Masonville, Rist Canyon, Red Feather Lakes, Glen Haven, Estes Park. **The disposal map changed in August 2026** — the old Larimer County Landfill on Taft Hill Rd closed and operations split across new sites.

SITE	RATE	NOTES
Estes Valley Watershed Coalition community slash drop-off Estes Valley	• FREE seasonal roll-off containers for slash, pinecones, needles	2026 Community Drop-off Days: **July 18, Aug 15, Sept 19, 9 am–12 pm** (EVWC with the fire district, WM and partners). Homeowner-facing; a Sixfold job in the Estes Valley might time a client haul to these dates. Estes Valley Fire 970-577-0900.

SITE	RATE	NOTES
Larimer County North Landfill 15669 N County Road 9, Wellington	• LOW Green waste: $9 flat (car/SUV), $16 flat (pickup/cargo van), or $13.00/cubic yard for trailers under 1,000 lb/cy — no state surcharge · compacted MSW $35/ton for comparison	Opened Aug 3 2026 for commercial haulers and for residents within ~10 miles (Wellington area). Green waste must be **clean and separated by type** (pallets / green waste / logs / yard waste) — mixed loads are landfilled instead. Tree trunks accepted only if ≤ **6 ft long and ≤ 2 ft diameter**; **root balls excluded**, treated / painted wood excluded. Per-ton green-waste rate for heavier loads not published — call (970) 498-5771. Ground on site.
Larimer County Central Diversion & Transfer Station 2388 W Trilby Road, Fort Collins	• LOW same green-waste flat / cy structure as above · transfer-station MSW $45/ton from 7/1/2026	The Fort Collins / Loveland drop-off point after the old landfill closed. Same green-waste separation rules. The practical Sixfold tip for the Fort Collins–Loveland–Masonville foothills.
Wellington / Red Feather Convenience Center Red Feather Lakes / Crystal Lakes area	• MID loose waste $20 / car or pickup (1 cy min) + additional cy · no separate green-waste rate	Serves the Red Feather Lakes fire country. Prices slash as loose waste, so only worth it for a small load close by.
Estes Park Convenience Center (Larimer County) Estes Park	• MID loose waste $25.91/cy + surcharge · minimum load (< ½ cy) $22.00 · rock/rubble $41/cy · **no dedicated green-waste line**	In the Estes Valley the cheaper route is the seasonal slash roll-offs above, not the convenience center — the center prices slash as loose waste.

BOTTOM LINE Larimer green waste is **cheap where it is offered** — $9–$16 flat per vehicle, $13/cy for a small trailer — at the **North Landfill (Wellington)** or the **Trilby Rd transfer station (Fort Collins)**, provided the load is clean and sorted and trunks are under 2 ft. Stumps and root balls are excluded there. The Estes Valley has no cheap standing site — use the free EVWC drop-off days or carry Estes material down to Trilby Rd.

F Summit County

Breckenridge, Frisco, Dillon, Silverthorne, Keystone, Blue River. Dense lodgepole, heavy beetle-kill history.

SITE	RATE	NOTES
SCRAP — Summit County Resource Allocation Park 639 Landfill Rd, Keystone	• LOW Wood chips $5/ton (min $5, 2 in max — *chips only, not slash*) · Wood slash $12/ton (min $10) · Yard waste, leaves & grass $31/ton (min $10) · Wood stumps $35/ton (min $15) · + $1.74/ton CDPHE fee (7/1/2026–6/30/2027) · unsorted C&D $150/ton	The cleanest fee structure on this list: slash, stumps and chips are each priced separately and **must be separate loads** to get the low rate — a mixed slash/stump load prices higher, and any dirt, rock or trash contamination bumps the whole load to the loose-trash rate plus surcharge and hauling. Mon–Fri 7 am–3:30 pm, Sat 7 am–11:30 am. Summit County also runs a free residents' chipping program in season. Contractors accepted at the posted rates.

BOTTOM LINE SCRAP at **$12/ton for slash, $35/ton for stumps** is workable and predictable — the discipline required is keeping slash, stumps and chips in separate clean loads.

G Eagle County

Vail, Avon, Edwards, Eagle, Gypsum, Basalt (north side), Wolcott.

SITE	RATE	NOTES
Eagle County Landfill 815 Ute Creek, Wolcott	• MID Wood chips $5.00/load (*chips only*) · **Trees / limbs 2 in diameter or larger: $21.00/ton** · Landscaping material $48.00/ton · Mixed household waste $48.00/ton · minimum charge $6.00 · effective Jan 1 2026	The “trees / limbs ≥ 2 in” rate at **$21/ton is less than half the landscaping rate** — a clean load of limbs and rounds is cheap, but grass, needles, brush under 2 in and mixed yard debris all price at $48/ton. Sort aggressively at the job. Mon–Fri 8 am–4:30 pm, Sat 8 am–3 pm. Resident punch pass and senior fee-waiver don’t help a contractor load.

BOTTOM LINE Load **clean limbs and rounds only** and pay **$21/ton**; anything mixed doubles to $48/ton. Already-chipped material is $5/load.

H Grand County & Middle Park

Granby, Grand Lake, Winter Park, Fraser, Tabernash, Hot Sulphur Springs, Kremmling, Walden. Historic epicentre of the mountain-pine-beetle epidemic.

SITE	RATE	NOTES
Confluence Energy Kremmling (and Walden)	• $0 OR BETTER historically bought / accepted beetle-kill logs, logging scrap and deadwood — **2025–2026 intake status unconfirmed**	Ran a 10-year Forest Service stewardship agreement to take beetle-kill pine, scrap and deadwood for wood pellets, pet bedding and absorbent. The company has had well-documented financial turbulence. If still taking clean conifer logs, potentially a **zero- or negative-cost outlet** for the log fraction. Call direct (confluenceenergy.com) before any Middle Park work.
Ranch Creek Waste 441 State Highway 125, Granby	• CALL rate not published · (970) 887-3618	Grand County’s main local hauler; operates transfer capacity.
Granby Transfer Station (The Trash Company) 726 County Road 612, Granby	• CALL rate not published · **Grand County’s landfills are permanently closed** — disposal routes through transfer stations, adding long-haul cost	Single-stream and C&D recycling plus transfer. The long-haul-to-Denver economics mean gate fees trend high; get a quote before committing a haul-off job in Grand County.
Kremmling town recycling drop-off 301 Central Ave	• N/A $4 per 30-gallon bag · 4th Saturday monthly 10 am–2 pm	Household recycling only — not a slash outlet. Noted so it is not mistaken for one.

BOTTOM LINE No standing cheap slash site — Grand County disposal is transfer-station priced and the numbers need a phone call. The wildcard is **Confluence Energy in Kremmling**: if it is still accepting logs, route the log fraction there and take only true slash and grindings to the transfer station.

I Pitkin County & the Roaring Fork

Aspen, Snowmass, Woody Creek, Basalt (south side), the Frying Pan.

SITE	RATE	NOTES
Pitkin County Solid Waste Center (Landfill) Aspen	• HOT **separated clean wood, branches, light organics ≈ $45/ton** · compactor / mixed trash ≈ $64.50/ton · commercial recycling ≈ $35.50/ton · *figures 2022–2024 — verify*	Runs a large, well-regarded compost operation and **requires 35% diversion** on projects in unincorporated Pitkin County (up from 25%), which pushes toward sorting wood out anyway. Sells finished compost. Contractors accepted; the diversion mandate is itself a reason a mitigation contractor is welcome.

BOTTOM LINE Sort the wood — separated branches at ≈ $45/ton beat the ≈ $64.50/ton mixed rate, and the county's diversion rule effectively requires it. Confirm the current numbers; the ones on file are a couple of years old.

J Routt County (Steamboat)

Steamboat Springs, Oak Creek, Yampa, Clark, Milner.

SITE	RATE	NOTES
Milner Landfill (Apex Waste Solutions, formerly Twin Enviro) near Milner, ~10 mi west of Steamboat on US 40	• CALL yard waste / organics at a "reduced rate" in the organics area — specific figure not published · (970) 879-6985	The **only landfill in Routt County** and the only local MRF, so there is no competitor to shop against; the county has publicly discussed revisiting the permit and tipping fees. An organics area exists, so slash prices below MSW — but you must phone for the number. Ownership moved to Apex in 2024.

BOTTOM LINE One gate, no alternatives — call Milner for the organics rate before quoting Steamboat work.

K Southwest Colorado (La Plata / Durango)

Durango, Bayfield, Hesperus, Vallecito, the Missionary Ridge burn-scar country.
Outside Sixfold's current reach but a major fire-mitigation area by any measure.

SITE	RATE	NOTES
City of Durango spring & fall clean-up city-wide	• FREE to city residents, twice a year	Event-based, homeowner-facing.

SITE	RATE	NOTES
La Plata County Bayfield Transfer Station 4496 CR 223, roughly halfway Durango–Bayfield	• CALL fee schedule per BOCC Resolution #2025-14, eff. Aug 1 2025 — yard-waste figure not obtained · (970) 749-0738	**Yard waste is accepted only at the Bayfield station**, not the main Durango transfer station. The old county landfill is under a state-funded closure / clean-up. Mulch is produced and offered back.

BOTTOM LINE Thin infrastructure — yard waste funnels to the single Bayfield station and the rate needs a call.

L Chaffee County & the Upper Arkansas

Salida, Buena Vista, Poncha Springs, Nathrop. Piñon-juniper and ponderosa; growing WUI around Salida and BV.

SITE	RATE	NOTES
Chaffee County Landfill near Poncha Springs (US 285 / CR 175 area)	• MID brush / yard waste for in-county users **raised to $40/ton** — but that figure is from an **April 2020** rate change and is very likely stale · "dirty dumper" contamination surcharge in effect	The only public disposal in the county. Current schedule at chaffeecounty.org/departments/landfill (the page blocks automated reads — call the landfill). **Do not quote off the $40 figure.**

BOTTOM LINE One site, and the only fee on record is five years old — phone before relying on any number here.

M Front Range metro landfills & organics yards

Regional catch-all — for jobs on the Denver-metro plains edge, or when a mountain haul-off is routed back toward base. These take contractor loads without a residency test.

SITE	RATE	NOTES
Larimer North Landfill / Trilby transfer Wellington / Fort Collins (see Region E)	• LOW green waste $9–$16 flat / $13 per cy	Cheapest metro-adjacent green-waste gate found, if the load is clean, sorted, and trunks are under 2 ft.
A1 Organics Eaton (HQ) · Keenesburg (largest, by appointment only) · Commerce City · Front Range mobile service	• CALL commercial organics-recycling rates by material — not published online · 1-800-776-1644	Purpose-built for this waste stream: the **Eaton** site's acceptance list is grass & yard trimmings, brush & limb, wood chips, **logs**, leaves, **clean wood**, clean soil. No 4-in or 6-ft size caps like the community sort yards. If the rate is competitive this is the cleanest contractor fit on the north Front Range — get a quote. Keenesburg needs an appointment. CSFS lists A1 among its forest-products outlets.

SITE	RATE	NOTES
Denver Arapahoe Disposal Site (DADS) Aurora (see Region B)	• CALL weight-based; green / organics-for-compost rate not obtained	Large, long hours, sells compost / mulch. The default metro option for stumps and mixed loads if the green-waste rate proves reasonable — confirm it.
Front Range Landfill Erie (see Region D)	• HOT wood = MSW $98/ton, $196 min	Repeated here only as the price ceiling. Avoid for wood.

Statewide ranking — cheapest first

Headline rate for a contractor load, best deal at the top. Units are *not* equivalent — a per-ton rate that looks cheap can beat a $10 load rate once a full weighed load is on the scale, and a free site 90 minutes away can cost more in truck time than a $35/ton gate 15 minutes away. Treat this as a first sort, not a routing decision.

1. **Confluence Energy** — Grand — if still accepting
   $0 or better for clean logs · status unconfirmed
2. **Boulder County Sort Yards** — Nederland, Meeker Park
   Free · register each property; ≤ 4 in, no stumps
3. **Douglas County Slash-Mulch** — Douglas
   Free · residents only – confirm
4. **Estes Valley Watershed Coalition drop-off days** — Estes Valley
   Free · homeowner-facing; 3 dates in 2026
5. **SCRAP / Eagle — wood chips** — Summit / Eagle — chips only, not slash
   $5 / ton or / load · contractor OK
6. **Clear Creek County Slash Site** — Clear Creek
   free in-county / fee out-of-county · residents free
7. **Gilpin County Slash Site** — Gilpin
   free in-county / fee out-of-county · residents free
8. **Black Forest Slash & Mulch** — El Paso
   $10 / load (6 for $50) · 6 ft × 8 in cap
9. **SCRAP** — Summit — wood slash
   $12/ton ($10 min) · contractor OK
10. **Larimer green waste** — Larimer — trailer
    $13/cy (or $9–$16 flat) · clean & sorted only

11 **Divide Slash Site (CUSP)** — Teller
$20 / load · homeowners only

12 **Eagle County Landfill** — trees / limbs ≥ 2 in
$21/ton · contractor OK

13 **Jefferson County SLASH** — foothills
$24 / 6-cy load · homeowner program — confirm

14 **Estes Park Convenience Center** — Estes Valley — slash as loose waste
$25.91/cy + surcharge · contractor OK

15 **SCRAP** — Summit — yard waste (leaves/grass)
$31/ton ($10 min) · contractor OK

16 **SCRAP** — Summit — wood stumps
$35/ton ($15 min) · contractor OK

17 **Chaffee County Landfill** — Upper Arkansas — brush
$40/ton (2020 — stale) · contractor OK

18 **Pitkin County Landfill** — separated branches / clean wood
≈ $45/ton (2022–24, verify) · contractor OK

19 **Eagle County Landfill** — Eagle — landscaping material
$48/ton · contractor OK

20 **Pitkin County Landfill** — Roaring Fork — mixed
≈ $64.50/ton · contractor OK

21 **Front Range Landfill** — Boulder / metro — wood = MSW
$98/ton ($196 min) · contractor OK

— **Midway · DADS · Milner · Granby transfer · Bayfield · A1 Organics · Rocky Top contractor rate** — various
no published rate — call · contractor OK

Fact-check log

CONFIRMED FIRST-PARTY (OPERATOR'S OWN SITE OR FEE SCHEDULE), 2026-09-08

- **Black Forest Slash & Mulch** — $10/load, 6-for-$50, cash/check only, 6 ft × 8 in limit, no stumps/roots/bulk needles, 2026 season May 2–Sept 12/19, Tue/Thu 5–7:30pm & Sat 8–4, no Sundays. (bfslash.org)
- **Jefferson County SLASH** — $24/load, 6 cy / 162 cu ft definition, cards only, 2026 start May 15, Marshdale & Tincup Ridge addresses, no stumps/lumber/detached leaves. (jeffco.us/2493)

- **Boulder County Community Forestry Sort Yards** — free; Nederland (291 Ridge Rd) May 7–Nov 14, Meeker Park (8200 Hwy 7) May 13–Oct 31, Wed–Sat 9–5; 4 in slash cap, 4 in min log, no stumps/root balls, beetle-log ban Jul 15–Sep 15; contractors register per property. (bouldercounty.gov)
- **SCRAP (Summit)** — wood chips $5/ton (min $5, 2 in max), wood slash $12/ton ($10 min), stumps $35/ton ($15 min), yard waste $31/ton ($10 min), separate-load requirement, unsorted C&D $150/ton, $1.74/ton state fee 7/1/2026–6/30/2027; 639 Landfill Rd Keystone; M–F 7–3:30, Sat 7–11:30. (summitcountyco.gov; highcountryconservation.org)
- **Eagle County Landfill** — landscaping $48/ton, MSW $48/ton, **trees/limbs ≥2 in $21/ton**, wood chips $5/load, $6 min, effective Jan 1 2026; 815 Ute Creek Wolcott; M–F 8–4:30, Sat 8–3. The $5 is for already-chipped material, not slash. (eaglecounty.us, fee schedule pulled verbatim 2026-09-08)
- **Front Range Landfill** — MSW/wood $98/ton ($196 min), clean soil/sod/mulch $18/ton ($36 min), effective Dec 1 2024; 1830 WCR 5 Erie; M–F 6–5, Sat 6–2. No separate brush line found. (frontrangelandfill.com)
- **Larimer County 2026 Solid Waste Fee Schedule** — green waste $9 car / $16 pickup flat, $13/cy trailer < 1,000 lb/cy, no CO surcharge; compacted MSW $35/ton (landfill) / $45/ton (transfer, eff. 7/1/2026); Green Waste Program requires clean separated loads, trunks ≤ 6 ft × 2 ft dia, no root balls; Estes Park Convenience Center loose waste $25.91/cy, $22 min; Wellington/Red Feather $20/car-pickup. (larimer.gov fee PDF, updated 12/15/2025)
- **Larimer facility change** — old Larimer County Landfill (Taft Hill) closed Aug 3 2026; North Landfill 15669 N CR 9 Wellington and Central Diversion & Transfer Station 2388 W Trilby Rd now operating. (Estes Valley Voice, 2026-08-08; larimer.gov/solidwaste/wasteshed)
- **Gilpin County Slash Site** — 278 Jankowski Dr Black Hawk, 2026 season Apr 22–Nov 8, Wed–Sat 7–2:30 / Sun 8–1, residents free / non-residents per fee schedule. (gilpincounty.colorado.gov)
- **Clear Creek County Slash Site** — 1531 Soda Creek Rd Idaho Springs, Tue/Wed/Fri/Sat 8–5, out-of-county fee. (via City of Golden business directory + county)
- **CUSP slash sites** — Bailey (Hwy 285 Deer Creek exit), Fairplay (waste transfer station off Hwy 285), Divide (Hybrook Rd off Hwy 24); **"No Contractors Please"** stated. Divide $20/load, ~one pickup bed, Saturdays in season, no stumps/roots/lumber/ties/dirt/metal/weeds/grass/bark/needles. (baileyslashsite.com; keepwoodlandparkbeautiful.org)
- **Rocky Top Resources** — 1755 E Las Vegas St Colorado Springs, M–F 7:30–5 / Sat 8–4, accepts branches/brush/junipers/logs/pallets/needles/leaves/old mulch, $10 Saturday rate residents-only and excludes contractors, delivery from $85. (rockytopresources.com; coloradosprings.gov/forestry)
- **City of Colorado Springs Forestry** — no public dump site; free mulch giveaway at 1601 Recreation Way, no commercial use. (coloradosprings.gov/forestry)

- **Douglas County Slash-Mulch** — free, residents only w/ ID, GreenWorks main site M–Sat 8–5, seasonal Sedalia site 5675 Delva Way Saturdays 7–5 through October, loader on site, free chips to residents. (douglasco.gov/slash-mulch-program — the page returns HTTP 403 to automated fetch; data via search index)
- **Midway Landfill** — 8925 Rancho Colorado Blvd, Fountain, I-25 exit 119, (719) 382-8383, accepts yard/green/wood waste for composting. (wmsolutions.com fact sheet)
- **DADS** — 3500 S Gun Club Rd Aurora, 6–8:30 M–F / 7–5 Sat, accepts yard/organics for composting, sells compost/mulch, (720) 876-2650. (wmsolutions.com; auroragov.org)
- **A1 Organics** — Eaton site accepts grass/yard trimmings, brush & limb, wood chips, logs, leaves, clean wood, clean soil; Keenesburg by appointment; 1-800-776-1644. (a1organics.com; csfs.colostate.edu)
- **Estes Valley Watershed Coalition 2026 community drop-off days** — Jul 18, Aug 15, Sept 19, 9am–12pm, free roll-offs for slash/cones/needles. (evwatershed.org; estesparknews.com)
- **Grand County** — landfills permanently closed; disposal via Granby transfer stations (The Trash Company 726 CR 612; Ranch Creek Waste 441 SH 125). (co.grand.co.us; the-trash-company.com)
- **Confluence Energy** — Kremmling + Walden, 10-year USFS stewardship agreement to take beetle-kill pine, logging scrap, deadwood for pellets/bedding/absorbent. (confluenceenergy.com; SteamboatToday)
- **Milner Landfill** — Apex Waste Solutions (ex-Twin Enviro), only landfill + MRF in Routt County, organics area at reduced rate, (970) 879-6985. (SteamboatPilot)
- **La Plata County** — yard waste accepted only at Bayfield Transfer Station (4496 CR 223); fees per BOCC Resolution 2025-14 eff. Aug 1 2025; old county landfill under state-funded closure. (lpcgov.org; Durango Herald)

CARRIED FROM AN OLDER OR SECONDARY SOURCE — VERIFY BEFORE USE

- **Chaffee County Landfill** brush / yard-waste rate — **$40/ton is an April 2020 figure** (Ark Valley Voice). The current fee page blocks automated reads. Call the landfill.
- **Pitkin County** separated-wood (≈ $45/ton) and mixed (≈ $64.50/ton) rates — from 2022–2024 reporting (Waste Today, Aspen Daily News). Not confirmed for 2026.

NOT OBTAINED — NEED A PHONE CALL

- Rocky Top Resources contractor per-cubic-yard rate (their “Price Guide” PDF is not on the indexed pages).
- Midway Landfill wood / green-waste rate vs MSW rate.
- DADS green-waste / organics-for-compost rate.
- Larimer County per-ton green-waste rate for loads over 1,000 lb/cy (only the flat and small-trailer rates are in the schedule).
- Front Range Landfill separate brush rate — appears **not to exist**; wood is billed as MSW. Confirm there is no unlisted green-waste rate.

- Granby transfer station, Milner organics area, Bayfield Transfer Station — all yard-waste rates.
- Confluence Energy — **current (2025–2026) intake status and terms for logs.** The company has had public financial difficulty; do not assume the outlet is live.
- Jefferson County SLASH, Douglas County Slash-Mulch — whether a **contractor may deliver a crew load on a resident's behalf**, or only the homeowner may haul. This determines whether "haul-off included" can be quoted on jobs in those counties.
- Clear Creek and Gilpin **non-resident fee schedules** (dollar amounts).

STRUCTURAL NOTES

- Sixfold has **no masticator / mulching head**, so there is no on-site mulch-in-place option — everything not left in a slash pile is chipped, cut to rounds, or hauled. Disposal cost is a live line on most quotes.
- Sixfold is a **commercial hauler**, which removes most of the free and cheap community sites from routine use. They stay relevant for (a) client-haul arrangements and (b) chipping days.
- Distances in this document are **rough drive estimates from Monument** and are not sourced — planning approximations only.
- Rates and season dates at these sites change annually and sometimes mid-season. Re-verify the sites for any region before a quote that commits Sixfold to a haul-off price.
