Spend, leads and conversations: Meta, from Matthew's screenshots (the first form ad's whole run, 13–14 Oct, from 19 Oct; the second form ad, 3 days, and the Messenger ad, 7 days, lifetime, 22 Oct). Jobs, prices and payments: the live app, 22 Oct. Kyle and Albert came in on 20 and 21 Oct, so they are the second form ad's. Russ and Carlos are counted to the form as referrals from Eric; Peggy is not among the form leads, so she is counted as Messenger (as on 19 and 20 Oct). A Messenger conversation is not a lead: the app holds 5 Messenger leads against Meta's 62 conversations. Website arrivals: the 365 site's own server logs. Left out: Brian (in person) and Kara (referral, done before these ads).
