Spend, views and results: Meta Ads Manager, 7 Nov morning (lifetime), plus the first form ad's run (19 Oct screenshot; its views are not on the new screenshot, so "seen → lead" uses the current form ad only). Jobs, leads, quotes and payments: the live app, 7 Nov. "Quoted" = an app quote, or the lead is at Quoted or Won, or it has a job. A Messenger conversation is not a lead: only the ones Jen adds reach the app, so Messenger's lead → quoted → booked steps run on far fewer people. Not counted as jobs: $0 return visits (Daniel C. (Fri, Nov 6)). Left out as before: Brian S. (in person) and Kara R. (referral). "Paid" means nothing is owed on the job.
