Waiting on you

Listed at the bottom

Traverse: 7-day free trial 3

7-day free trial	LIVE Live everywhere: website, Subscription Agreement version 4, the app and the Prospect Desk email templates. Card at sign-up, nothing charged during the trial, billing starts by itself unless they cancel. The 7 days count from the day the app goes live, not from sign-up. It replaces the 7-day money-back guarantee.
Website and agreement	LIVE Homepage, demo, start, welcome, terms and cancellation pages now say "7 days free". Checkout shows $0 due today and the date of the first charge. Agreement version 4 moves the 12 founding-price months to start after the trial. The attorney approved the 29 October versions; whether this one goes back to the attorney is your call.
Safety rules	LIVE The first charge never comes earlier than the date shown. Nobody is charged without an app: a daily check pushes the date out while setup runs, and 14 days after sign-up with no go-live the plan is cancelled, nothing charged, and you are emailed. Tested against Stripe in test mode, 14 of 14 passed. The live deploy passed every check; Sixfold was untouched.

Traverse: free-map emails 4

Free-map emails	LIVE The desk can now send timed messages, and a follow-up goes only while the company is still marked Emailed. 1,117 plain messages are queued on your go. Batch 1: 11 new companies, Monday 9 Nov from 9:00 to 10:20 MT, with follow-ups on Thursday 12 and Thursday 19 November. Batch 2: 1,084 companies already emailed (748 lawn, 336 roofing) whose town has a map, 100 per weekday from 19 November to 7 December, skipping 26 and 27 November. Address check on all 1,117: 1 domain takes no mail and 3 are doubtful.
Free town maps	LIVE A one-page map per town and trade: the top 10 streets by large lawns, or by homes under the radar-estimated hail. Street names and counts only, no sources named. The email is 55 words, one question, two follow-ups.
Marketing push	BUILT, OFF Where things stood: 1,823 emails, about 85 site visits, 1 reply, no demos. Also drafted: 152 new prospects with batch 1 written, and a private call list of 971 companies with the top 25 roofing and 25 lawn and a script.
Manual	LIVE The Traverse Manual now lists billing and the Terms step as live, with a short note on the free trial. The launch checklist says "Mark live starts the free trial".

Posts and content 2

Toy drive	BUILT, OFF 14 Facebook drafts for the Surge holiday toy drive, Mondays and Wednesdays 9 Nov to 28 Dec. Posts 1 to 4 use your four photos, cropped to leave out the logo tablecloth, the signs and the donor tally. On your permission VAA and the four charities are named; new, unwrapped toys only. Nothing posted or scheduled.
Facebook Reels	LIVE Reels now send the video itself to Meta instead of asking Meta to fetch it, which failed twice on 5 Nov. Live that morning.

Email and admin 2

Task list	LIVE Ticked what had already shipped. Closed on your word: giveaway merch and PPE branding (Nevaeh has them), Do Not Call, Messenger enquiries, Jobber export, review QR. Sixfold team share: Bryce's scheduling sheet archived.
Laptop	LIVE The touchpad fix for gaming is done. Chrome, video tools, LibreOffice, the GitHub tool, speech-to-text, PDF tools and the photo data tool were added.

Running tonight 4

Hail hours	LIVE The cloud computer started a hail-hours job for the 10 am and 11 pm storms.
Overnight review	LIVE A code, phone and tablet review is running.
Free trial sweep	LIVE Joins the 4 am morning run.
Free-map emails	LIVE Queued; first send Monday 9:00 MT.

Waiting on you 5

Toy drive	Review the 14 drafts. Poster says 12 to 6, the charity doc says 11:30 to 6.
Address check	1 no-mail domain and 3 doubtful addresses among the 1,117: say what to do with them before they send.
Agreement	Whether version 4 goes back to the attorney.
Google Workspace	The trial ends 7 November; check plan and price.
Blog	Surge blog is due again 18 November.

Full detail of every change: the workspace change history (git log) for 6 November 2026, and CHANGELOG.md. This document: changelog/2026-11-06.html, with a copy in Desktop › End of Day Reports.
