## Towns and doors 6

| | |
|---|---|
| **El Paso batch** | LIVE 12 new towns, and more doors in 10 towns that were already there. |
| **Mountain-town PO boxes** | LIVE 3 new towns plus 152 towns that gained doors. |
| **Where it is live** | LIVE Sixfold went from 409 to 424 towns. All five editions got the doors too (Roofing 422, the others 418). 34,810 doors added to the editions. |
| **Two old bugs** | LIVE The roof build crashed on office-lookup files. The photo outlines stopped at Deer Trail on every run; 61 map tiles were copied over from the cloud computer. Both fixed. |
| **Upload hiccup** | LIVE The first upload was dropped when the laptop changed Wi-Fi. It was resumed and finished. |
| **Rented and second homes** | BUILT, OFF About 218,500 homes. You said go. They add themselves when the cloud computer finishes measuring, around 12 Nov. |

## Sixfold 365 app 4

| | |
|---|---|
| **Your pipelines** | LIVE Your Full pipeline and My pipeline now use Jen's stage tabs. Your login only. |
| **Remove lead** | LIVE New "Other" reason with your own words. It marks the lead Lost and keeps your words as the note. Your login only for now. |
| **Facebook leads** | LIVE From 12:40 pm new Facebook form leads come to you until Jen is back. Michele Kramer was the first. |
| **Hand measures** | LIVE Save tool now works for rented homes too. Saved: Chase Gardner 2,594, Tracy Acosta 2,022, Rich Rooney 11,233 sq ft. |

## Leads 6

| | |
|---|---|
| **7 new Facebook leads** | LIVE Moved to you. Addresses matched: Linda Kyer is a townhome. Lu Ley (Minneapolis) and Wilfredo Zavala (California) are out of state. Michele Kramer moved to you. |
| **Rich Rooney** | LIVE Won, with a job booked. His Morrison property is 2.86 acres. We scanned it every way, and you traced it by hand. |
| **Contact history** | LIVE Logged for Andrew Laib, David Quintana, Neal Wagner, Deborah Hall, Jake Guildner and others. |
| **Emails** | SENT Written for Charlie Robinson, Michael Lucero and six follow-ups. You sent them. |
| **Removal timers** | LIVE Set for Thursday 12 Nov. Nothing is removed without asking you first. |
| **Lawn hand checks** | LIVE Our scans read 25 to 60% low on all three. Shaded lawns, and even the open lawn at Tracy's. This is the proof for re-tuning the measure. |

## Laptop 3

| | |
|---|---|
| **Touchpad and screen** | LIVE Touchpad sensitivity set to Low. Screen auto-dim turned off (the presence sensor was dimming it after 5 seconds). |
| **Slowdown** | LIVE Found 107 stuck helpers left behind by one of my own jobs. Fixed. Free memory went from 2.7 GB to 16.9 GB. |
| **Drag guard** | BUILT, OFF Written. It checks every 10 minutes and stops runaway helpers. It needs you to run it once (see below), because I am not allowed to schedule it. |

## Surge 2

| | |
|---|---|
| **Website review** | LIVE Fable checked the site before launch: ready after the launch switches and your go. Fixed old WordPress addresses so they forward to the new pages, a readable settings file, and the noindex switch. Launch steps rewritten. |
| **Toy drive posts** | BUILT, OFF 14 Facebook posts updated with your answers (Mon and Wed from 11 Nov, 12 to 6 pm, new or slightly used, no counts). Loaded in the post calendar as drafts. None approved. |

## Assistant, spend and other 3

| | |
|---|---|
| **Stay signed in** | LIVE The assistant and the post calendar now keep you signed in for a year. |
| **Spend list** | LIVE Everything you pay for, by company, ready for moving to a credit card. Meta ads at $50 a day is the big one. Squarespace bills six items. |
| **Companion bot** | We talked it through. I said no to building one that hides it is an AI. Telegram is the one I suggest. |

## Running tonight 1

| | |
|---|---|
| **Two overnight reviews** | LIVE Two Fable agents are checking today's code, and the live health and data. Reports go in shared/reviews/2026-11-10-overnight/. |
