Seopoint (seopointinc.com)

Research brief · 23 October 2026 · every fact traced to a page opened that day (sources on page 2)

> **Bottom line:** a real but very small Colorado Springs company (incorporated Feb 2021, 2–10 staff). Its main product is a monthly do-it-yourself "Business App" that is **Vendasta** software resold under its own name (confirmed from their client login page). **No reviews, case studies or published terms anywhere**, and also no complaints or lawsuits. Most of what it sells overlaps tools we already have.

What they sell

"Business App" plan	Price	Includes
Standard	**$399/mo**	1 training, 1 Q&A
Pro	**$599/mo**	2 training, 1 Q&A
Premium	**$849/mo**	3 training, 2 Q&A

3–6 month contract on every plan: about **$1,200 to $5,100** minimum. Extra training $50 each. Done-for-you plans are custom-quoted. Referral program up to $500.

Every plan includes

AI receptionist · CRM · automations · local SEO · review management · email & text campaigns · social posting · ad monitoring · citation builder · listing sync

Agency services (no prices shown)

SEO / SEM · social media · website design · brand design · free "Digital Report Card" audit. Targets businesses "of all sizes".

How their program works

1 · Join
Click Join, which books a discovery call.

2 · Onboard
1–3 training sessions plus Q&A, by plan.

3 · Run it yourself
You use the app; they give tech support.

4 · Or pay more
A custom "done-for-you" plan through sales.

Their pitch: "understand your goals, craft a plan, deliver results." **No ranking guarantees**, and no result can be checked: they publish no metrics or case studies.

Who they are

- **Colorado corporation "SEOPOINT"**, Good Standing, formed 13 Feb 2021; registered agent Justin Charles Celenza; Colorado Springs.
- **Website** registered 18 Feb 2021, on WordPress.com. **LinkedIn:** 2–10 staff, one employee listed (Celenza), 505 followers.
- Leadership: Celenza is shown as co-founder & CEO in search snippets; another site lists Carl Ekdahl as co-founder & CEO. Began as a solo freelancer around the pandemic.

Are they successful?

Nothing to show it

- No reviews on Google, BBB, Trustpilot, Clutch or UpCity; Yelp listing unclaimed with no reviews.
- No case studies with results.
- Three homepage testimonials name no business and couldn't be traced.
- Didn't show up in a "Colorado Springs digital marketing agency" search.

No bad news either

- No complaints, lawsuits or state / FTC actions found.
- No guaranteed-rankings promises.
- Registered, in good standing, local, consistent 2021 start.

Warning signs

RED	**No terms of service or privacy policy.** Both links go back to the homepage, so you can't see who owns your listings, reviews, contacts or website.
RED	**It is resold Vendasta software — confirmed.** Their client login (login.seopointinc.com) runs on Vendasta's systems: it calls Vendasta's login service at apigateway.co, uses Vendasta's product code "VBC" (Business Center) and carries Seopoint's reseller ID, **L4F0**. Their chat widget also loads from Vendasta. You'd pay their markup, and leaving likely means losing the dashboard, data and automations.
WATCH	**Their own details don't match:** two phone numbers ((331) 231-2882 and (630) 303-0950), a dead second website and three different ZIP codes. Odd for a company that sells listing clean-up.
WATCH	**3–6 month minimum.** Mild for the industry, but get the exact term, renewal and cancellation in writing.
OK	No ranking guarantees, no sign of link schemes, a real registered company.

Fit for us

We already have our own app (CRM, quoting, pipeline), the website and lead form, Square and Traverse, which cover most of the bundle. The only parts that might add something are **review requests** and **keeping listings consistent across directories**. Both can be bought directly or built into our app for less.

If you talk to them, ask

1. Business App is Vendasta (your reseller ID L4F0): what does it cost you per client, and what do you add?
2. Send the written contract: 3 or 6 months, auto-renew, cancellation notice, setup fee?
3. If I leave, do I keep my Google profile, listings, reviews, contacts, website and domain? In what format?
4. Which accounts are in your name and which in mine?
5. Who does the work, how many staff, is any of it subcontracted?
6. Three current field-service clients I can call, with before-and-after numbers.
7. AI receptionist usage limits? Are texts, emails and 10DLC fees extra?
8. Why do your own phone numbers and website differ across listings?
9. Where are your terms of service and privacy policy?
