Peak Pickleball: a new website

3 November 2026
Prepared by Matthew Sharpe

A rebuilt peakpickleball.us with one job: **turn visitors into class sign-ups**. Fast on phones, easy to book from, and one set of prices and rules everywhere.

What Peak gets

- **Try a class** and **Book a court** on every page, plus a call button on phones
- A home page that sells in one screen, with Peak's 4.9-star Google reviews up front
- About 13 clear pages in place of today's 34
- One set of prices, hours and rules, so pages never disagree
- An edit screen so Cammy can update the schedule, events and photos herself
- Working forms for corporate events, parties and scholarships
- Privacy, terms and waiver pages, and tracking ready for ads
- Old page addresses redirected, so Peak keeps its place in Google

Price

PAY UP FRONT

$3,000 one time

Half to start, half at launch.

OR PAY MONTHLY

$250 a month for 12 months

The same $3,000, spread over a year.

Timeline: about four weeks

Week 1
Plan the pages and design the home page. Peak approves the look.

Week 2
Build every page and Cammy's edit screen.

Week 3
Forms, booking buttons, photos, speed.

Week 4
Peak tests it on their phones. Fixes, then launch.

The four weeks start when Peak sends the website and Google logins, one answer for each price and rule, and photos.

Not included

Running ads, social posting, replacing the email service or CourtReserve, and photo or video shoots. Each is quoted on its own when Peak is ready.
