END OF DAY

Monday 9 November 2026

Everything we changed today across the apps, sites and data

Jen's leads to you · New quote options · Overnight review

3

App releases

Sixfold 365, all five editions and the practice copy; every check passed

7

Leads moved to you

Jen's weekend ad leads, in "Transferred from Jen"

5

Follow-up emails sent

Tom, Catherine, Greg, Lo, Bea; none bounced

8

Waiting on you

Listed at the bottom

Sixfold 365 app 4

Transferred from Jen	LIVE New section at the top of My pipeline. Jen's 7 texted leads are yours only while she's out; Send to Jen hands one back. Lead cards in Calendar › My leads now open the property too.
New quote options	LIVE Seed only, Fertilize only and Seed & feed, each with its own price at 2,500 sq ft and minimum (same math as the full price, plus the drive). Customer pages, agreement, receipts and aftercare use the right wording.
Aerate only	LIVE Now has its own price boxes too. Left empty on your word, so it is typed by hand until you and Brandon decide a price.
Pricing still empty	BUILT, OFF All four new price boxes (Pricing › Aerate only / Without aeration) are empty, so those options say "Not priced yet". Full package prices are unchanged.

Leads and email 3

Jen's 7 leads	LIVE Pulled, ranked, addresses matched by owner name (Bea: Windsor, outside the 45-mile area; Charlie: Arvada townhome, no lawn of his own; Michele: no such address in Colorado). Call script written.
Follow-up emails	SENT 5 sent from m.sharpe@sixfoldcolorado.com with your Google signature; logged Emailed on each card. Michele skipped (a relative said it was a mistake). Charlie's email written for you to send.
Catherine	LIVE Call-back set for Wednesday 11 Nov at 3pm, and confirmed in her email.

Lawn measuring 2

Tom, 9819 Meade Cir	LIVE Your trace 4,330 sq ft against ours 3,369 and DRCOG 3,412 (both about 22% low, grass under trees). Saved as measured; his card shows 4,330.
Catherine, 449 S Stuart	LIVE Your trace 1,942 sq ft; ours read 0 because one tree hides the whole front lawn. New failure case noted for the lawn work. Saved as measured.

Laptop 2

LG monitor	LIVE Main screen, extended. Set to 2560×1080 at 60 Hz because the dock's HDMI only carries 4K at 30 Hz; brightness 80, sharpness 60. A USB-C to DisplayPort cable gets the full 3440×1440.
Traverse Hub	LIVE Pinned to the taskbar; its icon and Bitwarden's were pointing at the old PC and are fixed.

Running tonight 3

Overnight review	LIVE Three Fable agents are checking and fixing the field app and JARVIS, the websites (Surge staging only), and the side apps and scheduled jobs. Reports go in shared/reviews/2026-11-09-overnight/.
Prospect follow-ups	LIVE The free-map follow-up batch keeps sending, finishing about 12 Nov.
Every Colorado house	LIVE The cloud computer is still measuring (El Paso first). Counts for your review Friday 13 Nov.

Waiting on you 8

Prices	Set the four new price boxes, or keep typing prices for now.
Aerate only	Decide the price with Brandon: ours was $385–470 against a local average of about $98.
Agreement wording	Clauses about marking sprinklers and frozen ground read as aeration-only on seed or fertilizer jobs.
Catherine	Call her Wednesday 11 Nov at 3pm.
Signature	Your Sixfold signature shows (303) 596-9515, which my notes list as the Traverse number.
Email setup	Optional: a DMARC reporting record for sixfoldcolorado.com (a DNS change, your go).
Jen	When she's back: send the 7 leads back to her, or keep them.
Workspace	Traverse Google Workspace trial ends 10 Nov: check it went to a paid plan.

Detail: git log for 9 November 2026 and CHANGELOG.md. The 7 and 8 November reports were not made.
