Our marketing bundle for clients like Peak

Cost and schedule · 23 October 2026 · prices from the vendors' own pages opened that day · build times are my estimates

OUTSIDE SERVICES, PER CLIENT
~$52–$87/mo
depending on the phone-answering option

SEOPOINT CHARGES A CLIENT
$399–$849/mo
plus a 3–6 month contract, for resold Vendasta

BUILD TIME
3–4 weeks
core set · 5–7 weeks for everything · ~½–1 day per new client

Monthly cost per client (recommended setup)

Piece	Service	How it's worked out	Per month
Listing sync	Moz Local Lite	$199 a year ÷ 12	$16.58
Local rank tracking	Whitespark Small Business	100 keywords weekly, billed yearly	$14.00
Text messages	Twilio	300 texts × $0.0083 + carrier fees ~$1.30 + number $1.15 + campaign $1.50	$6.44
Email	Amazon SES	5,000 emails × $0.16 per 1,000	$0.80
Google reviews	Google Places + Business Profile API	daily checks sit inside the free 1,000 a month; the profile API is free	$0.00
AI phone receptionist	Retell (we build the flow)	100 minutes × $0.125 + number $2	$14.50
Social scheduling	Our own scheduler (Buffer Free as backup)	built into the app	$0.00
Total per client			**≈ $52.32**

Assumptions: 300 texts, 5,000 emails and 100 receptionist minutes a month, 25 keywords tracked weekly, reviews checked daily. Heavier use costs more, roughly in proportion.

Swaps

- **Rosie** instead of Retell (turnkey phone answering, nothing to build): **≈ $86.82/mo**
- **BrightLocal Manage** ($40/mo yearly) instead of Moz + Whitespark: **≈ $62/mo**
- **Telnyx** instead of Twilio for texts: ~$1.50 less a month
- **Skip the phone receptionist** (if the client answers calls): **≈ $38/mo**

One-time costs per client

- Texting registration (10DLC): brand $4.50 + campaign vetting $15 = **$19.50**, plus $41.50 if a standard brand needs vetting. **Each client registers as its own business.**
- Website and hosting are not included above. Clients like Peak usually have a site already.
- No setup fee from any of the services listed.

What it's worth

At Seopoint's lowest plan ($399), the outside services take about **$52 of each $399**. The rest pays for your time: setup, posts, reports and support. Seopoint's own cost isn't public: Vendasta charges agencies $99–$999 a month, but its per-client wholesale prices are not published, so their markup can't be worked out exactly.

Schedule (my estimate)

When	What gets built	Build time
Week 1	**Client accounts:** each client separate (their own posts, reviews, leads and connections), with a client switcher.	3–4 days
Week 1–2	**Review requests:** after a job or visit, the customer gets a text or email with the client's Google review link; tracks who was asked.	2–3 days
Week 2	**Social post scheduler:** write or pick an image, approve, post to Facebook and Instagram at a set time; calendar view.	3–4 days
Week 3	**Client dashboard and report:** ad spend, leads by source, reviews, posts; a monthly PDF report per client.	2–3 days
Week 3–4	**Website chat:** a chat box on the client's site that answers from approved facts and turns the visitor into a lead.	3 days
Week 4–5	**Review monitoring** (basic first; the full version waits for Google's API approval) and **email campaigns**.	4–5 days
Week 5–7	**Text campaigns** (after each client's 10DLC registration clears), **listing sync** and **rank tracking** connected to the dashboard, **phone receptionist** if wanted.	5–7 days + waits

What can stretch the calendar

- **Google Business Profile API:** free, but needs an application. The client's profile must be verified and active for 60+ days and list a website.
- **Texting registration (10DLC):** per client; approval can take days to weeks.
- **Meta:** each client connects their Facebook and Instagram to our app, the same way we did for Sixfold 365 today.

Needed from you

- Test each piece as it lands.
- Approve the wording clients' customers will see (review request text, chat answers).
- Sign up for the outside services in your name (Moz Local, Whitespark, Twilio, Amazon SES, Retell or Rosie) when we reach them.
- The client's access: their Facebook, Google profile and website.
