Peak Pickleball: online presence audit

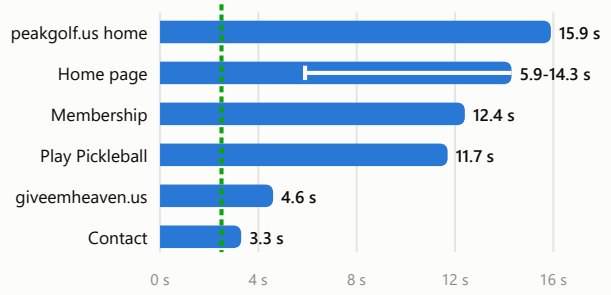

22 October 2026
Prepared by Matthew Sharpe

Players love Peak: **4.9 stars from 585 Google reviews**, the best rating in Colorado Springs pickleball. Online, though, the club is hard to book, slow on phones, inconsistent from page to page, and spread across 12 accounts with only two kept up. Almost every fix is setup work, not ad spend.

4.9 ★	0	43–66	12	0
585 Google reviews	"Book a court" buttons on the site	phone speed score out of 100	accounts found; 2 kept up	privacy, terms or waiver pages

Slow on phones

Seconds until the main image shows on a phone (Lighthouse, 22 Oct). Dashed green line: Google's "good", 2.5 s

Hard to get things done

From the home page: how far each task gets

See prices Easy	**1 click**
Sign up for a membership Easy	**1-2 clicks**
See today's open play Off-site · schedule only on CourtReserve	**2 clicks**
Book a lesson Off-site · no lesson prices anywhere	**2 clicks**
Book a court (first visit) Blocked · account + approval on CourtReserve	**no link**
Plan a corporate event Blocked · form can't be sent	**dead end**

Website: what is wrong, and the fix

- **No way to book a court.** A first-timer must find CourtReserve, make an account and wait for approval. "Book a Court" button in the header.
- **The corporate-event form can't be sent**: 17 fields, only "Print / Save PDF", and the events email sits on a page no menu links to. A real enquiry form with phone and email.
- **Slow:** a 14 MB autoplay video and 4–6 MB photos. Compress; load the map only on Contact.
- **Tracking with no privacy policy**: Google Analytics and Meta Pixel on all 34 pages. Privacy, terms, waiver, accessibility pages.
- **Pages disagree:** family rate $6 vs $7; cancel 24 h vs 4 h; "cancel anytime" vs 15 days' notice; walk in vs reservation; close 9pm vs 10pm. One set of rules.
- **Dead ends:** sponsor package buttons go to a missing page; the scholarship "application" has no form; staff personal emails and cell numbers used to book.
- **Missing:** Peak's iPhone app, the Wellhub partnership, schedules, reviews, lesson prices, a corporate page.
- **Hard to read:** the cyan buttons fail contrast (2.8:1; 4.5:1 needed); tap targets as small as 21 px.

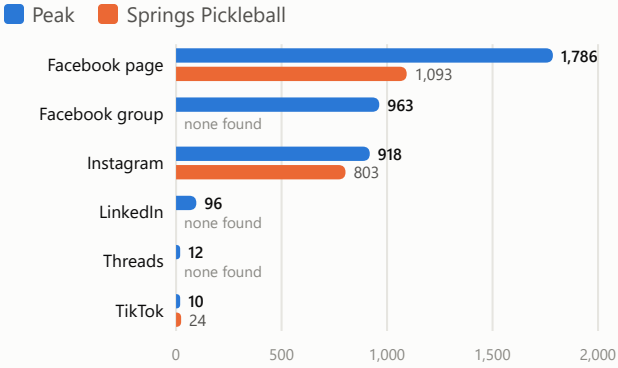

All 12 accounts at a glance

Facebook page 1,786 Active	**Instagram** 918 Active	**Facebook group** 963 members Peak quiet since 8 Sep	**LinkedIn** 96 Stale

Instagram: bursts, then silence

Likes on each post, 2–21 Oct (918 followers)

Reviews: Peak's biggest strength

Google reviews and rating, 22 Oct

But no visible owner replies, no "leave a review" link on the site, and Peak is missing from every "best of" list.

Google, maps and listings

- **Google's "Book online"** lands on a page saying "Briargate, CO", open from 5 AM.
- **Peak Golf's hours and description** appear on Peak's MapQuest and Yellow Pages pages; its own Google profile rates 3.0 (4 reviews).
- **Unclaimed:** Nextdoor, Yellow Pages, Apple Maps (Peak Golf). Hours differ on 4 platforms.
- **Wrong details elsewhere:** "16 courts" (DNVR), "Public / Free" (Pickleball Plus), the tournament listed twice at the wrong price (Bounce).

Social: what we would change

- **Rename Instagram** to "Peak Pickleball | Colorado Springs" (no "Peak" in it today).
- **Post on a calendar,** with the offer and price in the first line.
- **Repost every reel** to Facebook, TikTok, YouTube Shorts and Threads: one Facebook reel reached 84,000 plays.
- **Run the 963-member group:** open courts, sign-ups, results.
- **Claim a Facebook username;** fix the link page (it points to a Greensboro club's TikTok).
- **One tagline everywhere**, not five ("top", "Colorado's largest", "nation's largest"...).

The plan

1 Fix the basics

- Book-a-Court button
- One set of prices, rules, hours
- Privacy, terms, waiver pages
- Fix broken links and listings
- One name and tagline everywhere
- Review link on the site

→

2 Make it easy to say yes

- Fast, phone-first home page
- Working corporate + scholarship forms
- Schedules, lesson prices, app, Wellhub
- Google markup and posts
- Reply to every review
- Facebook events

→

3 Grow

- A regular posting calendar
- Reels reposted to TikTok, YouTube, Threads
- Regular posts in the 963-member group
- Review requests after visits
- "Best of" nominations, press
- A results report

Sources: Google Maps, Apple Maps, Bing, Facebook, Instagram, TikTok, YouTube, LinkedIn, Threads, Nextdoor, MapQuest, Yellow Pages and pickleball directories, viewed logged out on 22 Oct 2026; counts some platforms hide were not estimated. Full audit with every source available on request.
